

Student Achievements Effect Us All!

Networking For Life – *The Educational Process*

“a fun family educational program aimed at producing better grades in school for your children”

What is Networking For Life? A family tool that parents use to easily transfer important information to their children.

The Philosophy

Networking For Life is a philosophy that produces positive results when it comes to keeping students in school longer!

Why is “*Networking For Life – The Educational Process*” so important?

“One goal of *Networking For Life – The Educational Process*” is to change the way students think about going to school and their lives after they graduate from high school. Also included are activities, which promote monthly student and parent achievement, a copy of the *Networking For Life Student’s Bill of Rights to a Meaningful Education* and a diagram of the *Networking For Life Educational Funnel*. *Networking For Life – The Educational Process* is a tool that gives you a way to transfer knowledge to students in a way that allows them to become high student achievers.”

What our members are saying

“I like learning about things I can do when I'm 18 years old”- 3 rd grade student at Hernandez Elementary School (Dallas). “I like doing my home work now after participating in the *Networking For Life Student Achievement* presentation” – 3 rd grade student at Holy Trinity Catholic School (Dallas). “I wished the program was around when I was a kid” – parent at Inwood Day School Child Care Center (Dallas). “Thanks for helping us” – summer school students at Hernandez Elementary School (Dallas).

Program Reviews from community leaders

I especially found the monthly action plan to be immediately helpful and easy to use.

Catherine Brignole

I found the program very interesting and suggest contacting various PTA groups who may want to conduct a fundraiser for their group. **Terri Hodge, Texas State Representative, Dallas District 100**
