

connect

Connect is Texas PTA's parent education library, giving PTAs free access to turnkey programming that informs parents on critical issues facing our kids every day.

The biggest factors in students' success are active and engaged families, educators, and a supportive community. Connect works to empower parents, teachers, and students by equipping PTA leaders with resources they can easily share during meetings and events that address evolving issues facing our students.

This program also helps reinforce the important role parents, family members, educators, and mentors can play in being informed and supportive influences in the life of every child!

The Connect library currently includes turnkey resources—like videos made by subject experts, handouts, and activity guides—to easily facilitate the program at your campus.

Current topics include:

- Cyberbullying (David's Law)
- College Readiness
- Male Engagement in Schools
- Mental Wellness for Primary and Secondary
- Cybersecurity for Kids

Coming soon!

- Vaping
- School Safety
- Arts in Education

All Connect resources are available at no cost to Texas PTA members.

Learn how to access these invaluable resources by scanning the code below or visiting:
